Appendix 1 - Impact and Likelihood Descriptors and Risk Scoring Matrix

Risk Management Schedule

- Corporate Services
- Environment & Leisure
- Planning
- Community Services

1.0 Introduction

1.1 Effective risk management is essential if Houghton Regis Town Council is to deliver its key outcomes and achieve its goals. It supports continuous improvement and good governance.

Approved: 28th September 2015 Re approved: 15th May2024

- 1.2 Risk management is about us: identifying the things that could happen to prevent the delivery of our key outcomes (our risks); assessing how likely it is that these things might happen and what their impact might be; and determining what can be done to reduce the likelihood of those unwanted events or mitigate their impact. Effective risk management requires us to identify our most important risks; record those risks and the actions we plan to take to deal with them; and review, regularly the impact of our actions on our risks.
- 1.3 We cannot avoid risk entirely and it would be impracticable to try to manage away entirely the risks that we are exposed to. What we must do is: decide what level of risk we are prepared, and can afford, to accept; take action that is proportionate and affordable to reduce to an acceptable level as many risks as possible; and keep under review and actively manage those risks that remain unacceptably high.
- 1.4 The Risk Management Strategy has been adopted to help us to manage our risks effectively.

2.0 Scope

- 2.1 The Strategy provides an overview of risk management before examining in more detail the elements critical to successful risk management, i.e.:
 - determining our risk appetite
 - the integration of risk management into our decision making
 - linking service planning and performance management with risk management
 - defining responsibilities for risk management
 - processes for identifying, assessing and managing risk

3.0 Strategy Outcomes

3.1 The outcomes to be delivered by this strategy are within the approved Town Council Plan:

4.0 Risk Management - Overview

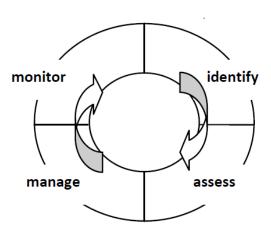

- 4.1 Risk management is the process by which the organisation seeks to identify, assess and manage key risks which might prevent it from achieving its corporate outcomes and goals or from doing so in an effective and efficient manner.
- 4.2 Risk management should not be treated as a standalone process. It should be treated just like budgeting and financial management or service planning and performance management something that any good manager does as a matter of course. It should be linked to the service and financial planning and management as managers identify both the risks to their plans as they develop them and the risks associated with subsequent actions to keep those plans on track.
- 4.3 Risk management is a continuous process. For known risks, it should operate from the time that each risk is first identified until such time as it no longer represents a significant risk to the organisation. Recorded risks and the controls used to mitigate them should be reviewed on

a regular basis: the frequency of review for each risk should reflect the impact the risk might have and the degree of confidence placed on the controls in place to manage it. In addition, there is a need for constant and ongoing vigilance to ensure that any new risks that may arise are recognised and dealt with before they can impact on the organisation.

Approved: 28th September 2015

Re approved: 15th May2024

- 4.4 There are a number of benefits of having an effective risk management process in place and these include:
 - Alerting management and other accountable persons to the key risks which might prevent the achievement of the organisation's corporate outcomes and service plan objectives, in order that timely mitigation can be developed to either prevent the risks occurring, or to manage them effectively if they do occur.
 - Contributing to better decision making and the process of achieving corporate outcomes and service plan objectives. When embedded within existing business processes such as planning, performance management, project management and budgeting, it provides a basis for ensuring that the implications of decisions are thought through; that the impact of any decision on other decisions, initiatives and projects is considered; and that conflicts within planning and decision making balanced. It also helps managers to design mitigations that are proportionate to the degree of risk faced.
 - Providing assurance to accountable persons and managers on the adequacy of arrangements for the conduct of business. It demonstrates openness and accountability to various regulatory bodies and to all other stakeholders.
 - Greater risk awareness and an improved control environment, which should mean fewer incidents and other control failures and better service outcomes.
- 4.5 The organisation's risk management approach is based on the standard management cycle of:

5.0 Risk Appetite

- 5.1 Risk appetite or risk tolerance are two terms that mean the same thing how much risk the organisation is prepared to live with to achieve service goals and reach its strategic objectives. Using the language of the risk management professional, the organisation may be risk averse, risk neutral or risk loving. The organisation's risk appetite may vary depending on which aspect of its activities it is considering but for risk management purposes, it must be capable of expressing its appetite objectively and numerically.
- 5.2 Houghton Regis Town Council has determined that it will use a scoring model based on impact and likelihood and will set a single risk tolerance level: any risk that scores 9 or more, using the model will be considered "primary" risks and will be subject to positive action

designed to mitigate the risk and bring its score within the tolerance level. Appendix 1 to the Strategy provides guidance for scoring the impact and likelihood of each risk.

Approved: 28th September 2015 Re approved: 15th May2024

5.3 To provide full assurance, those risks scoring less than 9 will also be recorded in the Risk Register – as will be the controls and other mitigations that resulted in a within-tolerance risk score. They will also be subject to monitoring designed to give assurance that controls are operating as expected to keep them within tolerance.

6.0 Embedding Risk Management

- 6.1 Embedding risk management is defined as building risk consistently and uniformly into all operations at every level so that it becomes part of 'the way we do things' as a matter of routine.
- 6.2 The key factors for successfully embedding risk management are:
 - Sponsorship;
 - Ownership;
 - Developing linkages with service plans and corporate priorities
 - Developing the appropriate knowledge and skills to identify, assess and manage risks
- 6.3 How we will seek to achieve these success factors and embed risk management is outlined in sections 7 and 8 of the Strategy and the accompanying appendices and guidance notes.

7.0 Roles and Responsibilities

- 7.1 Houghton Regis Town Council will only succeed in managing its risks if everyone understands their responsibilities in this area. The key message for all of us is that we share responsibility for our risks and we can't afford to have anyone shirking their responsibility.
- 7.2 The Town Clerk is specifically responsible for:
 - Producing and reviewing the Risk Management Strategy
 - Reporting to those charged with governance on the effectiveness of risk management arrangements
 - Providing (or obtaining via competent specialists) advice, guidance, support and training to employees and Councillors or other accountable persons
 - Reviewing committee reports to ensure risks relating to recommendations /decisions are clearly stated in the report
 - Promoting effective risk management across the organisation
 - Assisting officers in maintaining the corporate Risk Register
- 7.3 Every risk in the Risk Register will be made the responsibility of a specific employee, manager or Town Clerk. That person will be the Risk Owner.
- 7.4 The organisation's Corporate Services Committee is responsible for oversight of the risk management processes. The Committee receives 6 monthly reports on overdue risk actions. *Those charged with governance* are involved in the preparation and review of the Annual Governance Statement (*Statement of Internal Control*) which includes reference to the organisation's risk management arrangements.
- 7.5 The following table identifies other specific roles and responsibilities.

Who	Responsibilities
Accountable persons - those charged with	To hold management team (or equivalent)
governance (Town Clerk & elected members)	accountable for effective risk management across
	the organisation
	To ensure effective risk management
	arrangements are in place
	To consider risks when making decisions
	To raise risk issues and concerns with
	management team or Risk Manager
Senior management / Clerk (risk manager in this	To identify and assess risks to service delivery
context)	and instigate actions to mitigate those risks
	To identify corporate risks and ensure identified
	actions to mitigate are completed
	To champion risk management and lead by
	example
	Horizon scanning to identify emerging risks
	To ensure appropriate risk owners are designated
	for each risk or action
Project Managers (for projects)	To identify and manage project risks
	To ensure high level project risks are recorded on
	the Risk Register
Partnership Lead officers	To identify and manage partnership risks from
	the organisation's perspective
	To identify and manage risks from the
	partnership's perspective (where the organisation
	is the lead authority)
	To ensure partnership risks are recorded on the
	Risk Register and in accordance with any
	partnership agreement.
Clerk and other employees	To identify opportunities or threats to service
	delivery
	To take reasonable action to minimise risks in
	service delivery
	To report events (materialising of identified
	risks) to management team
	To seek advice from the Risk Manager on risk
	management issues

Approved: 28th September 2015

Re approved: 15th May2024

8.0 Risk Management Processes

- 8.1 Houghton Regis Town Council uses its Town Council Plan to identify its aims, objectives and desired outcome. Houghton Regis Town Council has determined that, for all outcomes identified in this Plan, Risk Owners must consider the risks that may materialise to prevent delivery of a desired outcome and determine what should be done about them. The following steps are to be followed:
 - **Risk identification** the Risk Owner will determine what might happen that could impact on delivery and establish when, how and why such an event might occur.
 - **Risk assessment** the Risk Owner will apply the guidance set out in Appendix 1 to determine the relevant risk score: if the risk score is outside the tolerance level action will be required. At this point the Risk Owner is assessing the "inherent risk", that is the risk that the organisation would be exposed to if no mitigating actions were taken.

• **Initial risk mitigation** – the Risk Owner will identify what controls are already in place to reduce the chance of a risk materialising

Approved: 28th September 2015

Re approved: 15th May2024

- **Initial risk response** the Risk Owner will determine what to do about a risk in terms of treating, tolerating, transferring or terminating the risky activity in order to reduce the potential impact on the organisation. Alternatively, you might take the risk in order to get an outcome that would not be achievable without taking the risk.
- **Risk review** the Risk Owner will review the scoring with the responses and controls in place to come up with the residual risk score.
- **Future risk mitigation** the Risk Owner will identify actions that need to be taken to reduce the residual risk score to within the risk appetite.
- 8.2 These steps may be undertaken by officers during a group workshop, or individually with the assistance of the Risk Manager or an external facilitator. Risks, controls and actions can then be recorded in the Risk Register. Risks can be classified as:
 - Corporate cross cutting and affecting all services in the organisation
 - Operational related to a specific service or activity
 - Strategic may affect the strategic direction of the organisation
 - Project time limited and specific to finite projects
- 8.3 Implementation of risk actions are monitored as part of the organisation's regular reporting of budgets, performance and risk management (where such reporting exists). Where actions have not been taken in a timely manner to mitigate risks, this shall be reported to the appropriate committee charged with governance.
- 8.4 Emerging risks identified through regular horizon scanning will be assessed, analysed and recorded on the Risk Register with suitable responses as soon as they are identified.
- 8.5 Risks relating to committee decisions are recorded in each committee report. The Risk Manager provides advice and guidance and will identify if the Risk Register requires updating with any corporate or service risks emerging from report recommendations.
- 8.6 Project risks will be identified at the outset of any project and recorded in the organisation's Project Management approach. Any project risks that have an inherent risk score of 9 or above will be recorded on the Risk Register in a sub-section for the appropriate service area. This will enable monitoring of controls and actions.
- 8.7 Once the project is completed, project risks will be removed from the Risk Register.

9.0 Monitoring and Review

- 9.1 The Strategy will be reviewed annually by Corporate Services Committee and reported to Town Council.
- 9.2 Progress with actions designed to mitigate primary risks will be reported to those charged with governance.
- 9.3 Risk Owners will review their risks on the Risk Register every six months and give assurance that controls are still operating as recorded.
- 9.4 Where appropriate, Internal Audit will review the organisation's risk management processes at least once every two years.

10.0 Glossary of terms

Term	Definition
Risk	The threat that an event or action will adversely affect the organisation's ability to deliver its objectives. The threat is measured in terms of impact and likelihood.
Risk strategy	How the organisation plans to achieve good risk management
Risk appetite	The level of risk the organisation is prepared to accept
Risk averse	A low appetite for risk taking
Risk positive	A high appetite for risk taking to potentially achieve a more favourable outcome
Upside risk	Opportunity to exploit a situation for a positive advantage
Inherent risk	The impact and likelihood of an event occurring before any controls haven been applied
Residual risk	The impact and likelihood of an event occurring when controls are operating as designed
Controls	Processes or actions taken to address risks by reducing the likelihood. Usually referred to as treating the risk. Cost of controls should be proportional to the risk
Mitigation	Actions taken or to be taken to reduce the chance of a risk materialising or the impact if it does.
Treat the risk	Operate processes to reduce the risk e.g. password security, spot checks, regular monitoring or reporting
Tolerate the risk	Agree not to take action, usually due to minimal likelihood of occurrence, or cost of controls is disproportional to the risk
Transfer the risk	Often through insurance, where the impact of a risk materialising is reduced. May also occur through outsourcing if a third party takes on the risk.
Terminate the risk	Stop doing the activity / service to which the risk relates
Take the risk	View the risk as an upside risk / opportunity to improve an outcome or deliver an even better service and take the chance

APPENDIX 1

IMPACT DESCRIPTORS (scores) – how big could the impact be?

The following descriptors are designed to assist the scoring of the impact of a risk if it were to occur:

Approved: 28th September 2015 Re approved: 15th May2024

Score	Low (1)	Medium (2)	High (3)	Very High (4)
Legal	Minor civil	Major civil	Major civil	Section 151 or
	litigation	litigation and/or	litigation setting	government
		local public	precedent and/or	intervention or
		enquiry	national public	criminal charges
			enquiry	
Financial	Up to £25k	Up to £50k	Up to £100k	Over £100k
Performance /	Low level of	Material level of	Unacceptable	Complete failure
Service Quality	minor complaints	minor complaints	level of	to deliver service
		Service quality	complaints.	Government
		impaired	Adequate service	intervention
			level cannot be	
			maintained	
Health and	Low level of	High level of	Serious injury	Death of an
safety of people	minor injuries	minor injuries		individual for
				whom the
				organisation has a
				responsibility
Reputation	Little or no	Minimal negative	Significant	Questions raised
	impact outside of	local media	negative front	in Parliament
	the organisation	reporting	page reports or	and/or reported in
			editorial	the national
			comment in the	media
			local media	

Financial risk impact levels should be adjusted to fit with the budget of the organisation. As a guide, Very High impact would be 10% of the organisation's net expenditure for the year (or precept and other income if applicable)

Houghton Regis Town Council Re approved: 15th May2024

Approved: 28th September 2015

LIKELIHOOD DESCRIPTORS (scores) – how soon might it happen?

Low (1) Once every two to five years or more

Medium (2) This year or next year High (3) Within six months to a year Very High (4) Immediate or within a month

RISK SCORING MATRIX

VERY HIGH (4)	4	8	12	16
HIGH (3)	3	6	9	12
MEDIUM (2)	2	4	6	8
LOW (1)	1	2	3	4
IMPACT /	LOW (1)	MEDIUM (2)	HIGH (3)	VERY HIGH (4)
LIKELIHOOD				

Scores are mapped on the matrix above.

 $Red\ scores-Primary\ risk\ that\ exceeds\ the\ organisations\ risk\ appetite-action\ needed\ to\ redress,$ monthly monitoring

Amber scores – likely to cause the organisation some difficulties – quarterly monitoring Green scores – monitor as necessary
