Fire Prevention Advice and Information and Fire Emergency Evacuation Procedure

Premises: Moore Crescent Sports Pavilion – COMMUNITY ROOM

Date: April 2018

Applicable Persons: Staff, Hirers and visitors

Fire Prevention Advice & Information

General

- Make sure all in your organisation read the advice provided.
- A telephone is not provided, users must ensure they have access to a telephone

Smoke Alarms

- Smoke alarms are provided by the council and are tested regularly
- To double check test the smoke alarm yourself on a regular basis

Fire Alarm

- This premise has an audible fire alarm which is routinely serviced. Please contact the Town Council if you notice any faults.

Fire extinguishers

- Fire extinguishers are provided for use only if it is safe to do so.
- The extinguishers are maintained annually. Please contact the Town Council if you notice any are faulty or missing or if you use one in the event of a fire breaking out.
- Don't move extinguishers from their positions, do not use them to hold open doors.

Escape routes

- Escape routes are marked by emergency escape signs.
- Plan the escape route and make sure all know where to go.
- Make sure escape routes and exits remain free of any obstructions.

Insurance

- The Town Council holds Public liability insurance. However all users are required to have their own insurance in place as the Council's insurance does not cover the activities or equipment of the hirer.

Fire training & Personnel

- Hirers must nominate a Responsible Person to safeguard the safety of all persons present including home and away teams, officials and members of the public. The nominated person should be competent in the use of fire extinguishers, be capable of extinguishing small fires, have some knowledge of fire prevention and be able to identify possible fire hazards to prevent fire from occurring. Importantly they should have an in depth knowledge of the Fire Emergency Evacuation Procedure and their role in implementing it.
- Hirers should provide training, regular evacuation drills and advice to the group and visitors on fire safety. You are required to carry out this fire training and it is recommended that you keep a record of the results of that training to assist you if you are ever required to prove your actions in the future.

Routinely Leaving the Building

- Switch off and unplug all electrical appliances not designed to stay on.
- Switch off portable heaters.
- Close the doors of all rooms.

Specific Types of Fire

Dealing with a fire if electric appliances are involved

- Pull the plug out or switch off power at the fuse box. This may stop the fire immediately.
- Smother the fire with a fire blanket (Kitchen), or use a carbon dioxide extinguisher if available. 'Dry' water mist extinguishers and foams can be used as well if they have been tested to 35kV.
- Dial 999 and call the Fire Service

Fires in the Kitchen

Cooking appliances

- Keep electrical leads from trailing over or going near cooking appliances.
- Don't hang tea towels or cloths on or over cooking appliances.
- Keep cooking appliances clean. A build-up of fat and bits of food can start a fire.

Microwave

- Don't put anything metallic inside the microwave.
- Don't dry clothes in the microwave.

Electrical

- Keep electrical leads away from water.
- Don't put a plant pot or anything wet on top of an electrical appliance.
- Check the toaster is clean and well away from textiles.
- Don't overload sockets; one plug per socket is the rule, especially if the appliance takes a lot of power (like a kettle).
- Don't run extension cables across the floor as they can become worn.

Electrical appliances

- Electrical appliances belonging to the town council are PAT tested annually
- Electrical appliances belonging to users must also be PAT tested annually
- Don't leave electrical appliances on at night.
- Is the kettle leaking? This can be dangerous.

Ventilation

Make sure your ventilation is working properly and not blocked up.

Fire Emergency Evacuation Procedure

Action to be taken in the event of fire and the arrangements for calling the fire brigade

On discovering a fire:

1. Raise the alarm
2. Advise the nominated fire officer to ensure that the Fire Service has been called
3. Try to extinguish the fire using the nearest appropriate fire extinguisher but only if it is safe to do so and you are trained to do so. **DO NOT PUT ANY PERSONS AT RISK.**

On hearing the alarm:

1. Act calmly
2. Do not collect personal belongings
3. If safe to do so switch off electrical appliances and close all doors to delay the spread of the fire and associated smoke
4. Give necessary assistance to those who need it to ensure that they can leave safely
5. Leave the building by the nearest available safe exit
6. Proceed to the assembly point, **VILLAGE GREEN RECREATION GROUND**, and report to the person in charge of the evacuation.
7. Do not return to the building for any reason until authorized to do so.
8. Remain at the assembly point so that you can be accounted for
9. The responsible person who is in charge of the assemble point should report to the fire service liaison person indicating all persons accounted for and any persons missing and where they were last seen

Calling the Fire Service

1. The fire service should be called immediately to every fire or on suspicion of fire by the nominated group member or by the person discovering the fire.
 - Lift the receiver and dial 9 for an external line followed by 999 OR Use the mobile telephone
 - Give the operator your telephone number and ask for FIRE
 - When the fire service replies say distinctly
 - Fire at **THE VILLAGE GREEN PAVILION, HOUGHTON REGIS**
 - Do not replace the receiver until the address has been correctly repeated to you.
2. Assemble at the pre-determined assembly point, **VILLAGE GREEN RECREATION GROUND.**

What to do if you're cut off by fire

- It's not easy, but try to remain calm. Save your energy to help you survive
- If you are prevented from getting out because of flames or smoke, close the door nearest to the fire and use towels or sheets to block any gaps. This will help stop smoke spreading
- If the room becomes smoky, go down to floor level – it's easier to breathe because the smoke will rise upwards.

Try to attract the attention of others who can alert the fire brigade. Wait for the fire brigade, they should arrive in a matter of minutes.
